

ACADEMIA AVANCE

Responding to Asbestos and Lead Concerns

| | |
|-------------------|--|
| Project Type | Environmental Health & Safety |
| Project Location | Highland Park, California |
| Project Size | |
| Client | Academia Avance Charter School |
| Date Completed | 2007 |
| Services Provided | Asbestos and Lead-Based Paint Inspection and Abatement Oversight |

The Planning Center|DC&E assisted Academia Avance Charter School in responding to concerns about asbestos-containing materials (ACMs) and lead-based paints (LBPs) in campus facilities. The Planning Center|DC&E played a significant role in resolving those concerns. The scope of services included the identification of ACMs and LBPs, completing a hazard assessment, and overseeing work performed by the hazardous materials remediation contractor. With The Planning Center|DC&E's involvement, the client was able to make informed decisions about remediation, thus avoiding unnecessary expenditures and resulting in a quicker turnaround.
